Four Star Oil & Gas Company respectfully requests permission for installation and modification of existing surface production facilities which includes installing dual flow lines, installing a 95 Bbl below grade Pit Tank for blow down and/or excess produced water and other necessary meter and/or separator modifications. Current plans are to initiate this surface facilities work within the next one-two weeks. This work will all reside on the current pad, thus no "new disturbances" are anticipated. Attached is a standard diagram of the Pit Tank for your use and review. Concurrent filing of this request to the BLM on Form 3160-5 is also being done on this same date.

Your approval of this request to install and upgrade these surface facilities will enhance the environmental and economic capabilities of this well and lease.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
