13. Describe Proposed or Completed Operations

ConocoPhillips requests to change the depth of this well.

The APD Total Depth was approved for 6215'. We would like to drill to 6345' to provide extra rat hole for fill. We are mist drilling the production hole on this well, which produces additional fill material that will fall to the bottom of the hole. Having the extra rat hole will give us some room for fill while still being able to set the casing shoe at or below the intended bottom of perf depth.

14. I hereby certify that the foregoing is true and correct.
