Describe Proposed or Completed Operations**

Plans have changed from completing just the Fruitland Coal on the subject well to also completing in the Fruitland Sands intervals and commingling. The plat for the Blanco Fruitland Sands is attached. The design for completing both formations will not change from the original design, it is just that there is Fruitland Sands present on this well that we also want to stimulate and produce along with the Fruitland Coal. The C107A to commingle will be submitted and approved before the commingling actually occurs.
