13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc. requests approval for an exception to NMOCD Rule 303-C to permit DHC of production from the Basin Dakota (71599), Blanco Mesaverde (72319) & Otero Chacra (82329) in the Jicarilla Apache #10F. XTO proposes to downhole commingle these pools upon completion of this well.

The oil & water allocations are based on the 9-section EUR average (please see attached spreadsheet).
The gas allocations are based on the average daily rate of all zones & are calculated as follows:

Basin Dakota:	Gas: 58%	Oil: 67%	Water: 57%
Blanco Mesaverde:	Gas: 35%	Oil: 33%	Water: 29%
Otero Chacra:	Gas: 7%	Oil: 0%	Water: 14%

RCVD JUN5'07
OIL CONS. DIV.
DIST. 3

NMOCD has been notified of our intent by submission of form C-107A. Interest owners are common in all zones therefore notification to owners was not necessary. Downhole commingling will offer an economical method of production while protecting against reservoir damage, waste of reserves & violation of correlative rights.

14. I hereby certify that the foregoing is true and correct
