COMMENCE DRILLING OPNS. ☐ P AND A ☐

CASING/CEMENT JOB ☐

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

In conjunction with planned and approved well work and installation of a DynaSave Pump (approved on 02/02/2007), Chevron Midcontinent, L.P. respectfully requests permission for the installation and modification of existing surface production facilities which includes installing dual flow lines, installing a 95 Bbl below grade Pit Tank for blow down and/or excess produced water, and other necessary meter and/or separator upgrade replacements and modifications. Current plans are to initiate this surface facilities work within the next week. This work will all reside on the current pad, thus no "new disturbances" are anticipated. Attached is a standard diagram of the Pit Tank for your use and review. Also attached is an e-copy of a C-144 for closure of a 95 Bbl Pit Tank in September, 2004. This now proposed Pit Tank will be replacing, in the same location, the 95 Bbl Pit Tank removed in 2004.

Your approval of this request to install and upgrade these surface facilities will enhance the environmental and economic capabilities of this well and lease.

RCVD JUN4'07
OIL CONS. DIV.
DIST. 3

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
