McElvain Oil and Gas requests a 1 year extension on the closure of the pit. Negotiations between the transporter, Williams and the Jicarilla Tribe for ROW are on going. Williams informed us they would not connect this well until a resolution is reached. Due to the remote location, there are few pipeline choices. We do not have a good timeline for pipeline hookup. McElvain does not complete a well until the pipeline is assured. We have determined completing a well then closing it in for an extended period of time subjects the formation to damage that then restricts production rates.
