13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**BP AMERICA PRODUCTION COMPANY respectfully requests approval to remove "disconnected" dehydrators, over the next 90 days, from thirty-nine (39) BP locations, as listed on the attached well list.**

**Due to improved processes on specific well locations, dehydrators are either obsolete or not needed. The listed locations have dehydrators disconnected and have been placed at least 35 feet away from the wellhead to be safely removed. BP requests at least 90 days to remove these dehydrators so that labor and transportation can be optimized. The time allocated to complete the removal is based primarily on contractor availability.**

**If you have any questions or concerns, please contact Larry Schlotterback @ 505 326 9425.**

*Disconnected equipment must be removed  
by October 1, 2007*
