13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will be performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Work commenced to remove the production liner from the wellbore on the subject well. Service rig was moved on and 7" casing was tested to 1500 psi. Latched onto liner hanger and attempted to pull liner. Pulled top of hanger apart. Milled liner hanger off and speared into liner. Jarred on liner and did not retrieve. Milled top off liner to 3050' (7" shoe). Speared into liner- failed to retrieve. Left liner in hole and abandoned operation. Landed 2-3/8" 4.7# production tubing at 3322' and returned well to sales.

14. I hereby certify that the foregoing is true and correct.
