- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc. proposes to amend our notice of intent to downhole commingle the above well. Change to our original notice is our allocation justification. XTO Energy seeks approval for an exception to NMOCD Rule 303-C to permit DHC of production from the Basin Dakota (71599) and the Angel Peak Gallup (02170) in this well upon completion of drilling.

Allocations are based upon a 9-section EUR as follows:

Basin Dakota:	Water: 88%	Gas: 81%	Oil: 68%
Angel Peak Mancos:	Water: 12%	Gas: 19%	Oil: 32%

RCVD AUG 10 '07

OIL CONS. DIV.

DIST. 3

Both pools are included in the New Mexico OCD pre-approved pool combinations for DHC in the SJ Basin. Interests are diverse & notification was given to owners on May 25, 2007 by certified, return receipt U.S. mail. The NMOCD has been notified and approved our intent by issuing DHC-2603 dated 6/6/07.

Downhole commingling will offer an economical method of production while protecting against reservoir damage, waste of reserves & violation of correlative rights.

14 I hereby certify that the foregoing is true and correct
