13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

(Henry Villanueva with the NMOCD witnessed the redi-mix cement in the 9.625 in casing at surface)  
On Friday morning 6/23, Rigged up and blew surface pipe dry at 189 ft. (Tag depth) Waited 30 minutes and broke circulation again and recovered no water. At that time Sky Ute redimix was dispatched and slowly dumped down the casing. Took about 25 mins. at a trickle of cement down the chute to get cement to surface. After 30 mins there was no fall back.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative, OGD-approved plan. ☐
