SECRETARY - DIRECTOR

Mr. Charles M. Goad PO Box 7 Glencoe, New Mexico 88324

Dear Mr. Goad,

The location of your #8 Gola well in Sec 4 -T17N- R3W is non-standard as it is only 130 feet from the 40 acre line and the rule in this pool specifies 150 feet. If production is secured at this location you will be required to go to a hearing for approval of the location prior to production. I thought you might prefer to move it prior to drilling.

Very truly yours,

Emery C Arnold

Supervisor, District III

MEMBER

STATE GEOLOGIST
A. L. PORTER, JR.
SECRETARY - DIRECTOR

Charles M. Goad d/b/a Gola Oil Company 11912 Euclid Court NE Albuquerque, New Mexico 87112

Dear Mr. Goad:

Since receiving your letter of October 19, 1965 regarding your wells in Section 4-17N-3W I have contacted Mr. Nutter and confirmed his conversation with you. As I understand it this acreage is within one mile of the South San Luis Mesaverde Oil Pool, which consists of the NE $\frac{1}{4}$ of Section 33-18N-3W and will therefore be governed by pool rules in this pool. These rules allow locations to be within 130 feet of the quarter-quarter lines and no nearer than 300 feet to any other well producing from the same pool.

Your locations are, therefore, standard and will require no further action.

If it is your intention to do business under the name of Gola Oil Company I would suggest that all future reports filed with the Oil Commission be designated in this manner.

If we can be of any assistance to you in any way, please contact us.

Yours very truly

Emery CG. Arnold

Supervisor, District #3
