13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to th

Plans are to install a verticle cathodic ground bed within the limits of Blackwood & Nichols existing pipeline right-of-way, (Serial No. NM 76260). The ground bed will be located in the SWSW Sec.2, T30N-R7W as shown on the attached map. The purpose of the ground bed is to provide cathodic protection for the NEBU 417 well casing and associated pipelines. The ground bed will be drilled within the previously distrubed pipeline right-of-way with a small truck mounted rig. A pit will not be required for the drilling of this ground bed. This project will be located on State lands.
