Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to the

Plans are to install a verticle cathodic ground bed within the limits of  
of Blackwood & Nichols existing pipeline right-of-way, (Serial No. NM 80897).  
The ground bed will be located in the center SE1/4 Sec.27 T31N-R7W as shown on  
the attached map. The purpose of the ground bed is to provide cathodic protection  
for the NEBU 216 well casing and associated pipelines. The ground bed will be  
drilled within the previously distrubed pipeline right-of-way with a small truck  
mounted rig. A pit will not be required for the drilling of this ground bed. This  
project will be located on Bureau of Land Management lands.
