13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Due to the whipstock being incorrectly orientated 180 degrees from the planned azimuth, a 25 sk cement plug was spotted and squeezed to seal the incorrect window from 3515' - 3522' and to patch the casing. a whipstock was set @ 3482' and the window remilled from 3473' - 3479'. Direction drilling operations was then continued.
