13. Describe Proposed or Completed Operations

While working on well to change out the damaged tubing found well was making a lot of water. Isolated water from Menefee perfs and wanted to squeeze just Menefee perfs and produce only from the Pt Lookout interval. 11/2/07 Called and received verbal approval from Troy Salyers (BLM) and Steve Hayden (OCD) to squeeze. Menefee perfs from 4166' - 4554'. Will set a CBP @ 4580' and packer @ 3591' and squeeze with between 100 - 150 sx cement. Will leave packer in hole overnight with pressure and then D/O cement the next day.

14. I hereby certify that the foregoing is true and correct.
