OTHER: Install 95 Bbl Pit Tank & Upgrade Surface Facilities ☒

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Four Star Oil & Gas Company respectfully requests permission for installation and modification of existing surface production facilities which includes installing a 95 Bbl below grade Pit Tank for blow down and/or excess produced water, dual flow lines, and other associated separator, meter and facility upgrades and modifications. Current plans are to initiate this surface facilities work within the next one-two weeks. This work will all reside on the current pad, thus no "new disturbances" are anticipated. Attached is a standard diagram of the below-grade Pit Tank for your use and review.

Your approval of this request to install and upgrade these surface facilities will enhance the environmental and economic capabilities of this well and lease.
