OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Williams Production proposes to dig a small pit on location. This pit would be used for short term storage of water from the reserve pit on location so the existing reserve pit can be closed. This is necessary due to current road conditions and being unable to get water trucks into location at this time. This pit would be lined and fenced. The free water would be pumped from the reserve pit into this temporary pit. As soon as weather permits this temporary pit would be pulled, the liner completely removed, pit backfilled and location recontoured.
