13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Chevron Midcontinent, L.P. respectfully submits this request for your approval to replace an existing 60 Bbl below-grade Pit Tank with a 95 Bbl below-grade Pit Tank for blow down and/or excess produced water. To facilitate this work and reduce potential of spills, a 100 Bbl temporary above ground tank has been set and will be utilized only until this work is completed. As the inner wall integrity of existing tank was questionable, work has been initiated to remove the existing 60 Bbl tank. Installation of a 95 Bbl replacement tank, in the same spot or location as the old 60 Bbl tank, won't begin until approval of this Sundry NOI. This work will all reside on the current pad, thus no "new disturbances" are anticipated. Attached is a standard diagram of the 95 Bbl Pit Tank for your use and review. Concurrent filing of this request to the BLM is also being done on this same date.

Your prompt approval of this request to replace the existing 65 Bbl below-grade Pit tank with an upgraded 95 Bbl below-grade Pit Tank will be appreciated and help reduce potential of adverse environmental impact due to potential leaks or spills.
