13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc. would like to install a storage container as previously discussed (see attached documents). Nothing will be stockpiled around the exterior of the container. The container will be painted to match the rest of the equipment already on the location.

Mr. Gordon Hammond
Ute Mountain Ute Tribe
P. O. Box 42
Towaoc, CO 81334

Dear Mr. Hammond:

XTO Energy, Inc. is hereby requesting permission to install a temporary metal storage container on the Mountain Ute Gas Com C #1 well location, SWNE Section 1, R31N, T14W, for the purpose of storing various types of field equipment and parts. Having such parts and equipment located centrally in the field will reduce the time in completing repairs and reduce additional travel on the roads in the area.

XTO plans to store miscellaneous parts and equipment such as steel fittings, needle valves, stainless tubing fittings, regulators, dry gauges, glycerin filled gauges, pump repair kits, fuel injector and brake cleaner, Teflon tape, and other miscellaneous items.

The storage vessel will contain no hazardous material, will be clearly marked as such, and each corner will be stabilized to prevent movement. The container will be painted to meet the color scheme requirements.

Enclosed, please find two pictures of examples of the type of container we plan to use. The size of the container will be approximately 20' X 8'.

If you approve our request to install the container, please mark the box below and return a copy to our office.

☐ The Ute Mountain Ute Tribe hereby grants approval for XTO to install a 20' X 8' storage container on the Mountain Ute Gas Com C #1 well location.

Sincerely,

A handwritten signature in cursive script that reads 'Nancy Gibson'.
