DETAILS OF WORK

(County or Subdivision)

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cem ing points, and all other important proposed work)

On 6/6/60, while drilling bottom plug at 7560. bit plugged which shut off gas supply and stuck drill pipe. Fished for 4 days until it became evident that fish could not be recovered without exercising poor economics. Because of high expense and extremely low potential of the Dakota Zone, a cast iron bridge plug will be eet and comented at approximately 6500' and the Dekota Zone of well will be abandoned.
