13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Four Star Oil & Gas Company respectfully requests permission for installation of surface production facilities which includes installing a 95 Bbl below-grade Pit Tank for blow down and/or excess produced water, dual flow lines and other necessary meter and/or separator equipment. Current plans are to initiate this surface facilities work within the next week. This work will all reside on the current pad, thus no "new disturbances" are anticipated. Attached is a standard diagram of the Pit Tank for your use and review. Concurrent filing of this request to the BLM on Form 3160-5 is also being done on this same date.

Your approval of this request to install and upgrade these surface facilities will enhance the environmental and economic capabilities of this well and lease.
