Devon Energy Production Company, L.P. would like to give notice of the cancellation of the down-hole commingle production from the Blanco Mesaverde and Basin Dakota zones. At this time we will not be commingling these zones.

Devon Energy Production Company, L.P. would at this time like to request permission to add the W.C. Basin Mancos zone to the well. Currently it is planned to set a plug over the Dakota zone, perforate and fracture treat the Gallup within the Mancos between 7,070' - 7,160'. The Dakota and the Mancos will be produced separately using a packer and tubing for an unspecified timeframe before requisition of a DHC will be submitted.
