13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**BP will run a smart pig through the pipeline starting at the Pump Canyon Transfer Station and going to the Horse Canyon Central Delivery Point. The pig is being run to inspect for internal/external corrosion. If significant corrosion is found, the pipeline will be blown down and repaired. BP does not anticipate the need to go beyond the ROW width**

**The Smart Pig will be run the week of May 12th.**
