13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

RCVD JUN 13 '08

OIL CONS. DIV.

Well is consistantly producing large amounts of coal. Current downhole configuration limits downhole pumping capabilites due to a limited "Rathole" for gas seperation and solids fallout.

DIST. 3

Under a current approved sundry (3-24-08) we are removing 5 1/2" liner and performing a cavitatin operation.

Before liner in replaced, we plan to deepen current depth (3769') by 100' TVD to 3869'+/-.

All previously approved guideline will be foloowed.

\* p.c. non prod; a mud logger will be required to be on well during deepening operations to monitor for gas shows in the p.c fm. Sump request granted 6/12/08
