13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

As per our discussion Monday 05/12/2008 the directional plan for the San Juan 32-5 Unit #115 has been changed so that the coal is entered 660' east of the mid line and 660' north of the south line of Sec. 22. The window for the upper lateral has also been shifted so that it will be cut in the west half of Sec. 22. The operations plan, plat and directional plan that reflect these changes are attached to this sundry.
