13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, A Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This well is shut in due to it having put oxygen into Enterprise's gather ing line. The well is a low volume producer. Enterprise will not allow oxygen into their line due to corrosion concerns, and are requiring an expensive slam valve be bought and put in place before they will allow production to resume. Bayless requests another 60 days to negotiate this problem with Enterprise.
