13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Richardson Operating Company requests the name of the well as referenced above be changed from the original APD application which was the Federal 12-13 #4. Per OCD requirements the infill well must be the same as the parent well, which in this case was the Federal 32-13 #2. The APD filed on 10/6/03 and approved on 10/16/03 had the name of the Federal 12-13 #4. Therefore the well name will be the Federal 32-13 #3. All other information submitted to the BLM for approval shall remain the same.

A revised C-102 is attached.

The well has not been drilled.
