Unit P, Section 33-27N-3W
Rio Arriba County

Dear Ms Riley:

Reference is made to the following:

(a) your application (**administrative application reference No. pKVR08-29433825**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on October 17, 2008, and

(b) the Division's records pertinent to this request.

Williams Production Company (Williams) has requested to drill the above-referenced well at an unorthodox gas well location described above in the caption of this letter. The E/2 of Section 33 will be dedicated to this well in order to form a standard 320-acre, more or less, spacing unit in the Blanco Mesaverde Gas Pool (72439). Spacing in this pool is governed by Rules I.A and I.C of the Special Rules and Regulations for the Blanco-Mesaverde Gas Pool, as amended by Order No. R-10987-A(1), effective December 2, 2002, which generally provide for 320-acres units, with wells located at least 660 feet from a unit outer boundary. This location is less than 660 feet from the eastern unit boundary.

Your application has been duly filed under the provisions of Division Rules 104.F and 1210.A(2).

It is our understanding that you are seeking this location for topographic reasons.

It is also understood that notice of this application to offsetting operators or owners is unnecessary due to common ownership.

Pursuant to the authority conferred by Division Rule 104.F(2), the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 40.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,
