13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

Please reference BLM demand letter dated 3/10/09

This Pictured Cliffs well is currently surface commingled with 2 other stronger Elliott wells. BP is currently evaluating well potential if not surface commingled. In addition the well was found to need a paraffin treatment.

It is BP's plan to restore to production by May 31st. If well is found to be non-productive a plugging procedure will be submitted as soon as possible.
