13. Describe Proposed or Completed Operations

Burlington Resources would like to change the setting depth of the Surface & Intermediate casing for the subject well. Surface casing was to be set @ 321' now setting at 220'. Intermediate casing was to be set @ 5101' now setting @ 4325'. This change will make it possible to start the directional drill higher and should improve cmt returns. 4/3/09 received verbal approval from Troy Saylers (BLM) to Proceed.
