13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to your letter dated September 30, 2003, Williams Production Company returned the above well to production on 6/17/03. This well has historically been a poor producer. We have made numerous attempts to make this well produce economically. Our plans to date are to let the well flow naturally without any artificial lift. The well is currently producing 5 to 20 mcf per day.

14. I hereby certify that the foregoing is true and correct
