13 Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On 7/31/09, this dual PC/DK well failed its packer leakage test. Devon plans to MI a workover rig & pull the tbg & pkr. The well will be cleaned out to below the DK perms. The production tbg & pkr will be repaired or replaced & re-run. The well will then be returned to dual PC/DK production. A new packer leakage test will then be run.
