13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Maralex intends to plug and abandon the Dome Federal 17-27-13 #2 well. The work procedure is as follows:

1. MIRU a workover rig
2. Pull rods and tubing
3. Pump 40 sk cement plug from 1358' (bottom perf) to surface. Wait on cement to harden
4. Cut off well 6' below surface
5. Backfill and erect abandoned well marker. ***Note: Will consult with NAPI since this well is in a field where they may not want a marker
6. Clean location per BLM requirements

Attached is a wellbore diagram.

RCVD SEP 18 '09

Rule 19.15.25.10C ... Below ground marker welded on to surface casing with all information from well sign and a current survey welded on steel plate at least 3' below surface.
