Re. OGRID: 13931
Inactive Well: Marian S #001
API: 30-045-27365
ULSTR: F-27-29N-11W

The referenced well appears on the Inactive Well List as of July 7, 2009. This is to inform you that we plan to rework the well attaching it to a compressor to reactive production.

However, we will hold off this work until later this year (November-December) when we believe the price of natural gas will recover from its current lows.

Should you have any questions please let us know.

Yours truly,

John Rywalt
General Manager
