NATURE OF RELEASE

Type of Release – Condensate	Volume of Release – 10 BBL Condensate	Volume Recovered – 0 BBL
Source of Release: Tank overflow	Date and Hour of Occurrence Unknown	Date and Hour of Discovery 10/27/08 – 1:43 p.m.
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? OCD - Brandon Powell via email BLM - Kevin Schneider via email	RCVD DEC 10 '08 OIL CONS. DIV.
By Whom? Gwen Frost	Date and Hour – 11/25/08 – 4:00 p.m.	DIST. 3
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		

Describe Cause of Problem and Remedial Action Taken.* **On October 27, 2008 a COPC MSO discovered a tank overflowing due to an increase in production. Upon discovery, the MSO shut in the well and shut oil dump off and called Western to empty the tank. All spilled fluids remained in the berm. None of the condensate was recoverable.**

Describe Area Affected and Cleanup Action Taken.* **All of the spilled fluids remained on location. The spill impacted soil on the ground surface around the tank. The production equipment was removed and affected soils were excavated by M&M Trucking on November 24, 2008. Excavation during daylight hours were granted by Mark S. Catron, Forest Service District Ranger. Approximately 330 cubic yards were excavated & disposed of at Industrial Ecosystems Inc. To prevent reoccurrence, COPC will continue to monitor tank levels.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
