NATURE OF RELEASE

Type of Release: NATURAL GAS	Volume of Release - 15.3 MCF	Volume Recovered - NONE
Source of Release: Wellhead	Date and Hour of Occurrence: 1/18/2009 10:00	Date and Hour of Discovery 1/20/2009 - 10:00
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? BLM	
By Whom? Larry Schlotterback	Date and Hour: January 23, 2009 - 15:30 am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

On Tuesday, January 20, BP Operations Tech reported to the San Juan Team Leader a natural gas release on the Day B 002 well location. This well site feeds a CDP where tubing and line pressure are the same. The failed valve was an automated vent valve before the CDP setup. A 2" ball valve upstream of the automated valve was closed and the vent was not being used. The line that the vent was connected was the discharge line off of the separator going to the CDP Compressor Inlet. It appears there was fluid stacked on the dead leg and froze.

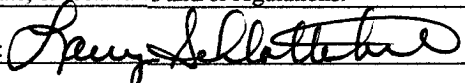

Gas release information was calculated using 3 different time spans.

1/18/09 10:00am to 2:00pm	4 hrs	26 psig to 10 psig	2.3 mcf
1/18/09 2:00pm to 1/19/09 9:00am	19 hrs	10 psig to 4 psig	6.6 mcf
1/18/09 9:00am to 1/20/09 10:00am	25 hrs	4 psig to 3 psig	6.4 mcf
<b>Total</b>			<b>15.3 mcf</b>

OIL CONS. DIV.  
DIST. 3

Describe Area Affected and Cleanup Action Taken.\* Soil on location and a nearby natural drainage was impacted. The area will be allowed to dry and any salt stain will be removed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
