NATURE OF RELEASE										
Type of Release – Produced Water						Volume of Release – 7 BBL Produced Volume Recovered – 7 BBL				
Source of Release: Tank leak						Water Date and Hour of Occurrence I				e and Hour of Discovery
Source of Release. Talk leak										20/08 – 8:30 a.m.
Was Immediate Notice Given?						If VEC To Whom?				
☐ Yes ☐ No ☒ Not Required						OCD - Brandon Powell via email RCVD NOV 24 'GB				
						BLM - Kevin Schneider via email OIL CONS. DIV.				
By Whom? Gwen Frost						Date and Hour – 11/21/08 – 9:00 a.m.				
Was a Watercourse Reached? ☐ Yes ⊠ No						If YES, Volume Impacting the Watercourse.				
If a Watercourse was Impacted, Describe Fully.*										
•										
Describe Cause of Problem and Remedial Action Taken.* On November 20, 2008, a contractor was swabbing well into water pit &										
noticed water around the bottom outside of pit. Bottom of tank possibly leaked due to corrosion. Upon discovery,										
the line to pit was closed off and the job was stopped. A water truck was called to recover water from around the pit.										
Approximately 7 BBL of produced water was spilled in the pit area. All water was contained in the berm and										
approximately 7 BBL produced water was recovered. Describe Area Affected and Cleanup Action Taken.* All of the spilled fluids remained on location and approximately 7 BBL										
produced water was recovered. Fresh soil was raked around pit area and soils will be monitored. To prevent										
reoccurrence, COPC will check tank for corrosion & repair.										
researches, ser e in an enter and the controller a repair.										
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and										
regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger										
public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability										
should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other										
federal, state, or local laws and/or regulations.
