NATURE OF RELEASE

Type of Release – Produced water & Condensate	Volume of Release – 18.5 BBL produced water & 18.5 BBL condensate	Volume Recovered – 0.25 BBL produced water & 0.25 BBL condensate
Source of Release: Leaking Check Valve	Date and Hour of Occurrence Unknown	Date and Hour of Discovery 6/29/09 – 7:30 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? OCD - Brandon Powell via phone call & e-mail BLM – Kevin Schneider via e-mail	
By Whom? Monica Johnson via phone & Shelly Cowden via e-mail	Date and Hour – 7/1/09 – 1:00 p.m.	RCVD AUG 12 '09
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. OIL CONS. DIV.	
If a Watercourse was Impacted, Describe Fully.* DIST. 3		

Describe Cause of Problem and Remedial Action Taken.* **The SWD operator found the ground stained and wet near truck unloading facility. Water/Oil mixed appears to have flowed back from 2 leaking check valves. A 1/2" blow down valve was left open and the fluid leaked through the checks and out the open valve onto the ground. An approximate 18.5 BBL produced water & 18.5 BBL of condensate was leaked to the ground. Upon discovery, the valve was shut in. All spilled fluids remained on location.**

Describe Area Affected and Cleanup Action Taken.* **The impacted soil was excavated by M&M Trucking & confirmation soil samples were collected before backfill by Envirotech. Excavated soil was taken to Envirotech landfarm. To prevent reoccurrence, COPC will continue to inspect equipment.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
