Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. OIL CONS. DIV.	

If a Watercourse was Impacted, Describe Fully.*

DIST. 3

Describe Cause of Problem and Remedial Action Taken.* **On June 24, 2009, while tripping out of the hole with washpipe, well started to come around before job was complete, 10 BBL of 2% KCI water came back before change over could be installed and well shut in. Water truck was on location when spill occurred; water truck recovered all standing water off the ground, approximately 9 BBL 2% KCI was recovered.**

Describe Area Affected and Cleanup Action Taken.* **All of the spilled fluids remained on location & majority of spill was recovered. The soil will be monitored to determine if further remediation is necessary. To prevent reoccurrence, COPC will continue to monitor rig activities.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
