### NATURE OF RELEASE

Type of Release – <b>Condensate</b>	Volume of Release – <b>10.5 BBL Condensate</b>	Volume Recovered – <b>0 BBL</b>
Source of Release: <b>Leak at Manway Gasket on production tank.</b>	Date and Hour of Occurrence <b>Unknown</b>	Date and Hour of Discovery <b>2/26/09 – 8:45 a.m.</b>
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <b>OCD - Brandon Powell</b>	<b>RCVD MAY 8 '09</b>
By Whom?	Date and Hour – <b>2/27/09 – 4:30 p.m.</b>	<b>OIL CONS. DIV.</b>
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	<b>DIST. 3</b>
If a Watercourse was Impacted, Describe Fully.*		

Describe Cause of Problem and Remedial Action Taken.\* **On February 26, 2009, a COPC employee discovered a leak at the manway gasket on the production tank and an approximate 10.5 BBL of condensate was gauged as the loss. Upon discovery, the MSO stopped the leak & notified Western to pull the tank down below the gasket & then scheduled the tank to be repaired. All spilled fluids remained in the berm. None of the fluids were recoverable.**

Describe Area Affected and Cleanup Action Taken.\* **All of the spilled fluids remained on location in the berm. The spill impacted soil on the ground surface around the tank. The production tank was removed and affected soils were excavated. M&M Trucking excavated approximately 768 yd3 of hydrocarbon impacted soil. The soil was hauled to Industrial Ecosystem's Incorporated landfarm. Approximately 738 yd3 of clean backfill was brought back to the location for facility reset. Envirotech completed the conformation sampling to confirm that all impacted soil was excavated. To prevent reoccurrence, COPC will continue to perform tank inspections.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
