13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximated duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc. requests that the Surface Commingle Order PC-1013 be amended to add in the Stagecoach #2.

This well will be a new Basin Fruitland Coal completion. This well will be equipped with its own allocation meter for gas measurement. Adding this well to the existing surface commingle will greatly enhance productivity by utilizing an existing compressor. There are no other changes to the initial surface commingle application.

- This well is recognized as contributing to the Owens / Stagecoach Central Delivery System.
