NATURE OF RELEASE

Type of Release – Produced water	Volume of Release – 8 BBL	Volume Recovered – 7 BBL
Source of Release: Line leak (repeat failure)	Date and Hour of Occurrence 11/25/07	Date and Hour of Discovery 11/25/07 – 2:30 p.m.
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? Brandon Powell – OCD – via email Richard Gallegos – NM State Land Office – via email	
By Whom? Monica D. Johnson	Date and Hour – 11/29/07 – 2:30 p.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* **A contract mechanic discovered a spill of 8 BBL produced water at the San Juan 29-6 Unit #301 SWD on the afternoon of 11/25/07, due to a line leak (repeat failure). The spill occurred when a 10" stainless steel line between the filter pot and the pump developed a leak. Upon discovery, the main inlet to the water transfer station was shut off and the leak was isolated. All fluids remained within the bermed area, and 7 BBL was recovered by vacuum truck. The SWD was shut down for investigation into the repeat failure and the lines were replaced with 10" Schedule 80 pipe instead of flexline.**

Describe Area Affected and Cleanup Action Taken.* **All fluids remained within the bermed area, and 7 BBL was recovered by vacuum truck. The remaining impacted soils were allowed to dry and raked to promote rehabilitation of the soils. The SWD was shut down for investigation into the repeat failure and the lines were replaced with 10" Schedule 80 pipe instead of flexline.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
