NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	~40 bbl	Volume Recovered	~35 bbl
Source of Release	Produced Water Tank	Date and Hour of Occurrence	<2/16/07 08:00 AM	Date and Hour of Discovery	Same
Was Immediate Notice Given?	☒ Yes ☐ No ☐ Not Required	If YES, To Whom?	Brandon Powell, NMOCD (Mark Kelly notified by email)		
By Whom?	Myke Lane	Date and Hour	2/16/07 15:25		
Was a Watercourse Reached?	☐ Yes ☒ No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.

Describe Cause of Problem and Remedial Action Taken.

Water hauling contractor failed to pull tank prior to overflow. Road conditions and inclement weather increase hauling times. Contained within secondary containment. Well shutin until tank and containment drained.

Describe Area Affected and Cleanup Action Taken.

Saturated soil conditions (inclement weather) likely to prevent significant produced water impact. As well pad and containment to be sterilized during production life of well, will reclaim when well P&A'd. No further action being taken at this time.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
