### NATURE OF RELEASE

Type of Release – <b>Produced water (Fruitland Coal)</b>	Volume of Release – <b>37 BBL</b>	Volume Recovered – <b>1 BBL</b>
Source of Release: <b>Line break due to freezing</b>	Date and Hour of Occurrence <b>1/23/08</b>	Date and Hour of Discovery <b>1/23/08 – 5:30 p.m.</b>
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <b>Brandon Powell – OCD – via phone &amp; email</b> <b>Herman Lujan – BLM – via email</b>	
By Whom? <b>Monica D. Johnson</b>	Date and Hour – <b>1/25/08 – 4:00 p.m.</b>	<b>RECEIVED JAN 29 2008</b>
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. <b>OIL CONS. DIV.</b>	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* **A ConocoPhillips Company MSO (lease operator) discovered a Fruitland Coal produced water spill of 37 BBL at the Blanco #201 on the evening of 1/23/08. The water line from the 500 BBL tank to the water transfer pump froze and broke due to the fire being out on the tank, as the fuel gas was frozen. Upon discovery, the valve from the tank to the transfer pump was closed. All of the spilled fluids were contained within the berm, a vacuum truck was dispatched, and 1 BBL was recovered from the berm (the rest of the standing fluids were frozen).**

Describe Area Affected and Cleanup Action Taken.\* **All of the spilled fluids were contained within the berm, and 1 BBL was recovered from the berm by vacuum truck. Once the frozen spilled fluids melt, fertilizer will be raked in to the impacted soil to promote rehabilitation, and will be evaluated for any further remediation (excavation) if needed.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
