NATURE OF RELEASE

Type of Release Produced Water	Volume of Release Approx 7 bbl	Volume Recovered Approx 5 bbl
Source of Release Pumping Tubing Line	Date and Hour of Occurrence 12/30/07, time unknown	Date and Hour of Discovery 12/30/07 at 9:30 am
Was Immediate Notice Given? X Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Brandon Powell- NMOCD Mark Kelly- BLM	RCVD JAN 11 '08 OIL CONS. DIV.
By Whom? Lisa Winn	Date and Hour 12/31/07	DIST. 3
Was a Watercourse Reached? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If YES, Volume Impacting the Watercourse Approximately 2 barrels	

If a Watercourse was Impacted, Describe Fully *

An estimated 2 barrels of produced water following an incline running off location and into a small unnamed dry wash. An emergency berm was constructed within the wash to prevent further run off and samples were collected for analysis.

Describe Cause of Problem and Remedial Action Taken * ☐ An XTO Lease Operator reported a release on location. Upon investigation it was discovered the pumping tubing line from the wellhead to the separator had froze and split releasing approximately 7 barrels of produced water onto the ground. Approximately 2 barrels ran off location down an incline and into a small unnamed dry wash. The location was immediately shut in and a vac truck was dispatched. Approximately 5 barrels was recovered.

Describe Area Affected and Cleanup Action Taken *

The location of the release was immediately contained by constructing a berm and vac truck was used to recover any standing water. An automation technician made repairs and the well was returned to production. Soil samples from the unnamed wash were collected for analysis. All notifications were made.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
