NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	12.5 BBLS.	Volume Recovered	12 BBLS.
Source of Release	Pit Tank	Date and Hour of Occurrence	3/25/2005	Date and Hour of Discovery	3/25/2005
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?	Date and Hour				
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse 0			

If a Watercourse was Impacted, Describe Fully.*

NA

Describe Cause of Problem and Remedial Action Taken.*

Corrosion caused a hole in the pit tank allowing water to leak into the bermed area around the pit tank.

Describe Area Affected and Cleanup Action Taken *

The ground was already saturated from stormwater, so the vacuum truck was able to recover the vast majority of the released fluid. The steel tank is being replaced.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
