Type of Rele						Volume of Release – 12 BBL Volume Recovered - none			
Source of Re	lease: 2" c	drain valve	leak		Date and Hour (3/17/05	Date and Hour of Occurrence Date and Hour of Discovery 3/17/05 2:00 p.m.			
						If YES, To Whom?			
☐ Yes ☐ No ☐ Not Required					•	Denny Foust – OCD – via email Mark Kelly – BLM – via email			
By Whom?		Monica	Olson			Date and Hour – 3/17/05 – 3:30 p.m. via e-mail			
Was a Water	course Read					If YES, Volume Impacting the Watercourse.			
☐ Yes ☒ No									
If a Watercourse was Impacted, Describe Fully.*									
Describe Cause of Problem and Remedial Action Taken.* A condensate spill of an estimated 12 BBL was discovered on Thursday									
afternoon, 3/17/05, by the lease operator. The spill resulted from a leak in the 2" drain valve on the condensate tank.									
The spilled fluids apparently soaked into the soil, as there was no standing fluid to be recovered. The drain valve was									
replaced.									
Describe Area Affected and Cleanup Action Taken * The spilled fluids apparently soaked into the soil surrounding the									
condensate tank. A one-call notification will be made and then remediation activities will begin, tentatively scheduled									
for next week. The spill area will be excavated and all stained soil will be taken to the Envirotech landfarm. Unless further information is discovered upon remediation activities, this will be the final report.									
turner information is discovered upon remediation delivities, this will be the final report.									
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and									
regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger									
public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability									
should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other									
federal, state, or local laws and/or regulations
