If a Watercourse was Impacted, Describe Fully.*

None

Describe Cause of Problem and Remedial Action Taken.*

Water tank over filled into berm containment. Weather related. Road conditions were very poor from high precipitation and we could not get to location to shut in well. Well was shut in using helicopter 2/24/04 and this was when the well release was discovered. Water release will be recovered when access to the location is possible.

Describe Area Affected and Cleanup Action Taken.*

Water contained inside containment berm.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
