Describe Cause of Problem and Remedial Action Taken.*

While flaring the well, the well surged 2-3 bbls of oil and caught the blow pit on fire. The fire then ran into the reserve pit and caught the reserve pit on fire. The liner burned from the fluid level to the top of the pit. No injuries or release of fluids to the environment.

Describe Area Affected and Cleanup Action Taken.*

Fire was contained in the blow pit and reserve pit. No release of fluids to the environment.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
