If a Watercourse was Impacted, Describe Fully *

Describe Cause of Problem and Remedial Action Taken * **A produced water spill of approximately 5 bbl was discovered on 2/03/05. The spill resulted when a 500 bbl tank ran over. The spill was contained within the bermed area. A vacuum truck recovered approximately 5 bbl of fluid containing compressor lube oil and produced water.**

Describe Area Affected and Cleanup Action Taken. * **No water left the berm. A vacuum truck recovered approximately 5 bbl of fluid. A soil sample was taken. The contaminated soil will be excavated and hauled to Envirotech landfarm, if necessary. Unless the investigation and remediation shows further soil impact this will be the final report.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
